

Rain Barrel Workshops

The rain barrel workshop series is brought to you by the Water Quality Forum, a coalition of partners working together to keep our waters clean. For more information on the Water Quality Forum, please visit www.waterqualityforum.org or find us on Facebook at Water Quality Forum (<https://www.facebook.com/WaterQualityForum>).

**Come learn about and take home your own rain barrel ready to attach and collect rain water!
(Pre-drilled with hardware & downspout attachment provided)**
